INDIA ARMY ORDER

BY

HIS EXCELLENCY THE COMMANDER-IN-CHIEF
IN INDIA.

Army Headquarters, Simla, the 7th February 1913.

National Insurance Act.—India Army Order 747 of 1912, which promulgated certain *Provisional* ("Time limits") Regulations made under the National Insurance Act, 1911, is cancelled; and in supersession of the same the following Regulations, which have been made substantive and presented to Parliament, are published for the information and guidance of all concerned.

2. These Regulations prescribe "time limits" in respect of three matters, *viz.*—

- (a) The time within which *a soldier, who has re-engaged for pension*, may elect to insure himself by having deductions made from his pay.
- (b) The time within which *a soldier who has not joined an Approved Society but is insured with the Navy and Army Insurance Fund*, may—on taking his discharge—become a member of an Approved Society.
- (c) The time within which *such a soldier as is mentioned in (b)*, who proves that his health will not allow him to become a member of an Approved Society, may—on taking his discharge—apply to the National Insurance Commissioners to receive benefits through the Navy and Army Insurance Fund.

(In default of action under (b) or (c) he will become merely a "Deposit Contributor".)

3. The effect of these substantive Regulations now published, with regard to *soldiers serving in India*, is as follows :—

As regards (a)—Such soldier—if he re-engaged before the 15th January 1913—had to make his election before that date, and the time of election is now past.

If he re-engages on or after the 15th January 1913, he may elect to continue or discontinue insurance any time up to and including the first day on which he receives pay after the date of his re-engagement.

As regards (b) and (c)—Such soldier—on taking his discharge must *either* join an Approved Society, *or* apply to the National Insurance Commissioners to receive benefits from the Navy and Army Insurance Fund, within three months of his discharge if discharged in the United Kingdom, or within six months of his discharge if discharged outside the United Kingdom.

4. The necessary additions to Regulations will be published in due course.

87. Passages—Railway.—It has been brought to notice that when applications are made to Railway Administration by, or on behalf of, British and Indian soldiers in India, for refund of fares on tickets purchased, which for some reason or other were not fully utilised, delay and disappointment to the applicant is often caused owing to the absence of definite information as to the numbers and dates printed on such tickets. It should, therefore, be impressed on all concerned that no application for a refund can be settled by Railway Administrations without this information, and they should be warned to make a note of the number and date on every ticket they purchase.

2. It should be noted that when India Army Form T. 1720 is used, through tickets must be requisitioned for, as the system of travelling by stages often adopted by Indian soldiers is not permissible for the journeys to which the form pertains.

90. Judicial—Convening orders for Courts-Martial.—

Great care is enjoined in the preparation and issue of convening orders: in this context attention is invited to paragraphs 576, 577, King's Regulations, and to Part II of the "Hints for the guidance of Staff Officers in dealing with Courts-martial, 1911."

2. Where alterations in the composition of the Court become necessary after the original convening order has been issued on Army Form A.-47, this document will be withdrawn and a new Army Form A.-47 will be substituted whenever possible (King's Regulations, paragraph 577); otherwise an amending order must be issued *prior to the assembly of the Court*, which must be laid before the Court and attached with the convening order to the proceedings.

An amending order cannot issue *after* the Court begins to sit, and a court-martial whose composition differs from that authorised by the convening order, and amending order (if any), is illegally constituted.

3. Whenever it becomes necessary for a convening officer to avail himself of the services of an officer from another command, the command which lends the officer will insert in its own orders (or at least issue in the form of a memorandum) an order to the effect that—

"The undermentioned ^{officer has} ^{officers have} been placed at the disposal of the ^{General Officer Commanding} ^{Division} ^{Brigade} ^{Station} (as the case may be) for duty at a court-martial to be held at..... on"

The officers may be detailed by name, or by rank and corps; but if an officer is lent as president he must be detailed by name.

The original convening order on Army Form A.-47 will be issued complete in the usual manner, and the above order, or a true copy thereof, will be attached to it as the authority for the detailing of an officer not under the command of the convening officer.

4. A convening order should be dated and signed on the day it is issued, and it should appear from the date that there was time to comply with R. P. 14.

5. This order applies "*mutatis mutandis*" to convening orders issued under the Indian Army Act.

91. Supply and Transport Corps—Store Accounts—
The Government of India have considered the present Finance Department system of preparation and sub-
(Military Finance) letter mission of the store accounts of
No. 49-Accounts, dated the Supply and Transport Corps
13th January 1913.
and have decided with a view to ensuring uniformity and
simplification of procedure that, commencing with the
accounts for April 1913, the following procedure shall be
adopted in all divisions in supersession of the varied
systems that may now be in force.

With the exception of fixed dead stock and marching equipment returns, which will be checked and filed half-yearly in supply and transport offices, all store and stock returns will be prepared monthly by the agents and store-keepers in charge of stores, and will, after check and countersignature by the supply and transport officer concerned, be submitted, without consolidation, direct to the divisional audit office by the 20th of the month following that to which they pertain.

The returns of all agents and store-keepers and those of hospital store-keepers as regards articles of diet will be prepared in India Army Form Z.-2108, which will be modified as in the specimen copy attached which has been made adaptable for both receipts and issues. Articles of hospital equipment other than diets will continue to be accounted for in India Army Form S.-1585 which will be slightly modified so as to exclude articles of diet.

The returns will be prepared in duplicate by the carbon process if this procedure will result in saving of clerical labour, one copy being retained for record.

Except in the case of victualling agents' returns and diet returns of hospital store-keepers, which will be checked and balanced monthly, the entries in all returns will be confined to the actual issues and receipts and totals of the month, no monthly balances being shown or brought forward. Balances will, however, be struck at the close of each half-year and will be shown in the return rendered at the close of the half-year. Thus the entries for the first

92 . five months of each half-year will be confined to the actual receipts and issues and totals in each of those months, but the returns for the six months, *i. e.* the half-yearly return rendered for September and March, will show—

24th Feb.
1913.

- (i) the closing balances of the previous half-year ;
- (ii) the total receipts and issues of each month of the half-year in consecutive order ;
- (iii) the transactions in detail of the month itself ; and
- (iv) the grand total of the receipts and issues for the half-year and the closing balances of the half-year.

All objection statements will be issued by the divisional audit officer against the supply and transport officer concerned and correspondence connected with the returns will be carried out by the audit officer and the supply and transport officers in direct communication with each other.

Separate orders will be issued in regard to the procedure in the field

92. Correspondence.—The Office of the Director of Ordnance Stores will close at *Poona* on the 20th March 1913 and re-open at *Simla* on the 1st April 1913. 116. Clothing—British Army.—The following War Office letter No. 84/W/5697 (Q.M.G.7), dated 5th December 1913, is published for information:—

I am commanded by the Army Council to inform you that their attention has been drawn to the advantages claimed for a foot-strap to be used by soldiers with sore feet when marching.

The device consists of a strap which can be fixed in a figure of eight round the boot. The strap is broadened at certain points of contact. Its form and the method of fixing are shewn in the following diagrams:—

When a man develops a blister or rubbed foot he puts on the strap, which fixes the boot, prevents further rubbing, and changes the points of contact where there is pressure. It is claimed that he can then continue to march without pain, and the constriction of the superficial blood vessels tends to aid the healing of the blister.

The strap should be drawn just tight enough to be comfortable. The buckle should be on the outer side of the foot to prevent brushing, and should rest in the hollow in front of the prominence of the ankle. The straps should not be used with boots fitted with hooks for laces.

It is not proposed to recognise these straps officially, but there is no objection to officers, non-commissioned officers and men making use of them should they desire to do so.

118. Documents of Soldiers proceeding Home for Discharge, etc.—The following extracts from a report forwarded to the War Office by the Commandant, Discharge Depôt, Gosport, are published for information:—

Conduct Sheets.

"One of the chief causes of increased clerical work at the Discharge Depôt is that the new company conduct sheets forwarded by corps, are not, in many instances, prepared in accordance with King's Regulations, paragraph 1925; others are incomplete in that entries which should have been copied into them have been omitted."

Documents.

"The preparation of documents from abroad shows improvement. There are still many points which might be attended to, viz.:—

"The characters of 39 men assessed as 'Exemplary' by Commanding Officers did not fulfil the requirements of paragraph 419, King's Regulations.

"The contents of
tions, still require a
parchment certifica
had to be destroyed and new ones issued. It should
be particularly noted by Officers Commanding units that
any unfavourable remarks must not be inserted on the
parchment certificates, but may, if desired, be entered in
proceedings.

119

10th Mar.
1913.

"In many instances, * * * * * the characters and qualifications were shown on parchment certificates and proceedings on transfer in pencil. This caused a great deal of extra work. * * * The documents were eventually completed in ink by the units concerned."

Clothing and Equipment.

"In many cases knee-boots and spurs were brought home from abroad"

Further, the Commandant, Discharge Dépôt, has brought to notice that it is still the practice of officers authorising discharges of men whose 'services are no longer required' to omit the decision as to payment of gratuity the matter incorrectly being left to the Commandant, Discharge Dépôt, to enter on the men's documents.

2. The above noted points should receive such attention in future as will ensure their not being overlooked when sending home men for discharge, etc., from this country.

119. Correspondence—The following amendment is made to the "Statement showing the Channel of Correspondence, etc."

Item No. 203.—The third note in the Column of Remarks, as added by I. A. O. No. 17 of 1913, is reconstructed as follows

"In the case of first appointment to commissioned rank if a Hindu the name should be written in Hindi (Dev Nagri) and if a Muhammadan the name should be written in Urdu, as well as in English in the Draft Notification."

120. Rewards—Good Conduct and Meritorious Service—In the annexure to India Army Order No. 38 of 1913, the following corrections are made :—

Page 60, for "No. 1640, Sowar Lehne Khan, 9th Bhopal Infantry" and No. 1612, Sowar Hira Singh, 9th Bhopal Infantry read "No. 1640, Sepoy Lehne Khan, 9th Bhopal Infantry, and No. 1612, Sepoy Hira Singh, 9th Bhopal Infantry."

121. Musketry Training—Annual Returns—In their reports on the musketry training for the year, in regimental annual returns (paragraph 620, Musketry Regulations, Part I), commanding officers will give explanations in cases where any items in the musketry training of their unit have not been carried out.

2. When sending ammunition by rail despatching officers will endorse on the credit note the words "safety" or "non-safety" as the case may be. 216. 218. Education of Soldiers' Children.—It has been brought to the notice of His Excellency the Commander-in-Chief that, owing to the circumstances in which they are frequently placed, warrant and non-commissioned officers in departmental employ, cannot always obtain for their children the free education provided in Regimental Schools. The only other schools to which they can be sent are the Lawrence Schools at Sanawar, Murree, Mount Abu, and Ootacamund, where the school fees charged are based on a sliding scale. To assist, therefore, soldiers in departmental employ who have large families to educate and find the cost of education and the other incidental charges connected therewith to be a severe strain on their incomes, the Government of India have been pleased to place at the disposal of His Excellency the Commander-in-Chief, with effect from the current financial year, an annual grant of Rs 5,000. This amount will be disbursed under the orders of the Adjutant-General in India in cases in which His Excellency is satisfied that assistance is deserved after taking into consideration the circumstances of the parents in each case.

2. It is accordingly notified for information that applications from warrant and non-commissioned officers in departmental employ desirous of such assistance from the grant mentioned should be submitted through the Commanding Officer of the Corps or the Head of the Department in which the individuals are serving to General Officers Commanding Divisions or Independent Brigades. The Commanding Officer, will select and forward to the Adjutant-General in India by the 1st July of each year only those applications in which they consider the circumstances of the case justifies the grant of pecuniary assistance.

3. Pecuniary assistance granted to any individual will be for a period of 12 months after which applications are to be made afresh. The grant will be made in arrears of the month in which the application is received.

4. Commanding Divisions and Independent Brigades, any change in their emoluments with a view to a report being made to the Adjutant-General in India for a reconsideration of the case.

4. The form to accompany an application for assistance is published as an annexure to this order.

23rd June

The necessary instructions for carrying out the test (paragraph 3) will be embodied in the Regulations for Magazines in India 1911.

3. To ascertain the angle, the gun is first brought approximately to a horizontal position. The special four foot straightedge provided with suitable sectors (or in the case of Field guns, the "gauge, testing clinometer plane"), is then inserted in the muzzle end of the gun and clinometer readings are taken both on the straightedge and the clinometer plane. The difference of these two readings is the angle required. [7

2. Paragraph 2 of the India Army Order cited directed the submission of applications to the Adjutant General in India by the 1st July of each year, but in consequence of the decision now arrived at it has been decided to extend that period to the 1st September of the current year, to enable General Officers to consider the claims of the Non-Departmental soldiers in cases where this has not already been done.

N.B.—The British Mountain Battery, shown above as unbrigaded will always occupy, under present circumstances, the place, in a brigade, of the battery detailed for service in Egypt.

2. The British Mountain Artillery brigades, under the above organization, will permanently consist of the batteries now allotted to them, and, so far as circumstances will permit, the batteries of a brigade, with its headquarters, will always be located together, moving in relief intact. In the case of the Indian Mountain Artillery, owing to the large proportion of single battery stations, and the limited number of Lieutenant-Colonels, the brigade organization will necessarily be of an abridged nature, and reliefs will be arranged on a similar system to that at present in vogue in the Royal Horse Artillery in India, *i.e.*, the brigade headquarters will be localised, and, in the course of reliefs, each brigade will be brought for a period under the command of a Lieutenant-Colonel.

3. The batteries will be brought together so far as possible in their respective brigades in conjunction with the annual reliefs. Until further orders, the third batteries, at present attached to the British Mountain Artillery Brigades located at Rawal Pindi, and Quetta, will remain under the command of the Lieutenant-Colonel Commanding the Mountain Artillery at each of those stations.

S., or earlier pattern, taken from India to Imperial stations by British Infantry units will be withdrawn on *disembarkation*, and such of them as are considered serviceable by the Imperial authorities will be returned to the Superintendent, Army Clothing Factory, Alipore.

2. In consequence of this decision, the stock of drab haversacks with the Army Clothing Department, referred to in paragraph 2, *ibid*, is likely to last longer than was originally anticipated.

636. Quarters—Officers.—With reference to India Army Order No. 280, dated 26th May 1913, as amended by India Army Order No. 640 of this date, will General Officers Commanding, Divisions, be good enough to ascertain whether all officers owning houses at the date of this order have obtained the sanction of the Divisional Commander thereto, and to direct that where sanction has not been obtained, application should at once be made for it.

637. Accounts—Budget.—As cases of excessive expenditure in the month of March, some of an entirely irregular nature, continue to be reported, India Army Order No. 516 of 1906, is republished below for information and guidance.

The necessity for the prompt payment of all ordinary charges as they fall due is emphasised, so as to guard, as far as possible, against a rush of deferred expenditure in the month of March.

This order is not intended to apply to cases in which additional grants are specially sanctioned at the close of the year for a specific object.

India Army Order No. 516 of 1906.—

"*No. 516-Finance.*—The Commander-in-Chief wishes the attention of all disbursing officers to be drawn to the custom which now obtains of endeavouring to spend, at the close of the financial year, allotments which have been made for specific purposes, and for the economical expenditure of which there is not sufficient time remaining.

The object of this hurried spending of funds appears to be not necessarily the completion of the particular service during the year, but the avoidance of lapses.

638

17th Nov.
1913.

His Excellency desires it to be understood by all concerned, that this custom, in most cases, leads to waste of public money, and that in any case where the work cannot be carried out with proper care and entire efficiency within the financial year for which the grant has been allotted, it is far preferable that the money should lapse to Government, or be reappropriated to other purposes, under the sanction of a competent authority. But the fact of the anticipated lapse, and its amount, should be definitely reported at the earliest possible date, with the request for renewed provision, if needed, in the estimates of the succeeding year, which request will be accepted and acted upon, whenever possible.

Lord Kitchener desires that in future these instructions may be carefully observed."

638. Pay and Allowances—Indian Army.—The following amendments to Army Regulations, India, Volume I, have been approved by the Government of India, and are published for information. The amendments will appear in the Appendix to India Army Orders in due course.

Paragraph 984, Note 2 is reconstructed as follows:—

Note 2—A soldier (except of the late Hong-Kong Regiment or Asiatic Battalion of Royal Artillery) re-enrolling after being pensioned, invalided, or discharged on public grounds, will count his previous service towards good conduct pay from date of re-enrolment, provided that at the time of re-enrolment he declares his former service and cause of discharge, and that he refunds any bonus or gratuity he may have received on discharge in not more than thirty-six monthly instalments from his pay, counting from date of re-enrolment.

Men discharged at their own request will be allowed to count their former service towards good conduct pay on completing any consecutive period of three years, within which they must not have had two

Combatants (including those of the late Hong-Kong Regiment and Asiatic Battalion of Royal Artillery), who are re-enrolled as such after having taken their discharge voluntarily, or after being invalided, provided they (a) have completed since re-enrolment any consecutive period of three years, within which they have not had two red ink entries or a court-martial conviction, (b) declared their former service and cause of discharge on re-enrolment, and (c) have refunded any gratuity they received on discharge in not more than thirty-six monthly instalments from their pay, commencing from date of re-enrolment.

The officer commanding will at once settle the bill for the supplies accepted, (such supplies are liable, in the same manner as any others, to rejection by the committee referred to in paragraph 230 below), arrange for their retail issue and for the subsequent disposal of any surplus.

- (c) If shops are, or can be, established, on or near the camping ground, articles other than those referred to in (b) will be retailed by the shopkeepers, if shops neither exist nor can be arranged for, these articles will be dealt with as in the case of those mentioned in (b).

230. The advance party referred to in paragraph 214

* "Taking over" does not necessarily involve acceptance referred to in paragraph 229 (b) may be authorised, in conjunction with the supply official, if any, to take over*, but not to reject, those supplies which are not to be retailed by shopkeepers

Supplies may only be rejected by a committee composed, (a) in the case of supplies for British Troops, of British officers, (b) in the case of supplies for Indian Troops, preferably of Indian officers superintended by a British officer, otherwise, of British officers, and (c) in the case of supplies for animals, of British officers, if available, otherwise of Indian officers superintended by a British officer; the civil official, if present, should attend the committee, supplies ordered and tendered may be rejected only on account of unfitness for consumption according to the standard usually consumed by the persons or animals for whom they are intended; but if
